### **American Infosourse**

**Financial Analyst** 

October 2016 - October 2022

### Job responsibilities:

- Working on Positive Pay is essentially a tool designed to detect fraudulent activity. It does this by matching specific information related to the cheque presented for clearing, like the cheque number, cheque date, payee name, account number, amount, and other details against a list of cheques previously authorized and issued by the issuer.
- Measuring and managing the transactions received to the company, reconciling payments and ensuring the accounting system reflects the correct entries, handling general ledger reconciliations, issuing receipts to customers on receipt of payments, performing day-to-day financial transactions such as verifying, calculating, and posting accounts receivable data, and generating month-end reports.
- Prepare monthly bank reconciliation for daily operating bank accounts for 99 branches. Research and resolve reconciliation discrepancies.
- Prepare adjusting journal entry to correct the appropriate general ledger accounts.
- Audited balanced and reconciled daily cash postings, statements and check deposits.
- Created an excel spread comps sheet for ATMs cash flows, Vaults, etc.
